

2068-S Low Round Table

Description

Our Low Round Table is a modern display solution for your wholesale store. It features a sturdy, white table top that rests on sleek stainless steel legs, making it the perfect addition to any contemporary space. This table also complements our small round riser tables and round tables (2067 and 2069). The low height makes it ideal for showcasing products or displaying literature while still providing enough room underneath to keep items stored out of sight but accessible. This multifunctional piece is both stylish and practical.
