

2075F Set of 2 Large Connecting Shelves

Description

Our large connecting shelves are an ideal storage solution for any retail setting. Crafted from durable wooden construction, these rectangular-shaped shelves feature a modern high gloss white finish that complements any style of décor. The modular design allows them to easily connect and expand existing single and double modular etageres (2073 and 2074). These shelves provide ample space for storing and displaying items while the lightweight design allows you to quickly move them around tight spaces when needed.
