

4344-DP 4 Tier Square Counter Top Display

Description

The four-tier spinning square display from D.B. Imports is an ideal way to make the most out of your store's merchandising opportunities. Crafted from a distressed pine and finished with a brown finish, this counter top display stands out in any store setting. Its design features four separate levels that spin independently providing customers easy access to products while creating an eye-catching view of merchandise within the fixture. Thanks to its durable construction, it can withstand wear and tear while still offering reliable storage space for your retail items. Make this tiered square counter part of your business today and take advantage of its unique character to enhance any store setting.
