

Stool / Small Pedestal

Description

This pedestal table from D.B. Imports is the perfect addition to your home or office space. The metal base of four legs provides a sturdy surface for whatever you'd like to place on top, whether it be documents for work or decorations for your living room. The wooden top is finished in distressed pine and sealed against dirt, ensuring that it always looks good no matter how long it's around. This is the smallest of a trio of pedestals. Pair with the medium (item 4364) and large (item 4365) to complete the collection.
