

Two Tier Counter

Description

D.B. Imports two tier counter is a stylish way to add retail display and transaction management to any shop. It provides two shelves for product storage, two drawers for supplies and materials, as well as a cash wrap section with ample room for transactions and credit card payments â€“ making store operations quick and seamless. The two-tier counter helps create an organized, professional atmosphere that customers are sure to appreciate when shopping at your store! With its elegant look and necessary storage space, our two-tier counters give you the perfect balance of style & practicality needed for running a successful business. Combine with our counter stand (2119A) Island counter (2119) or Back Cash Wrap (2112BC) for a versatile surface & storage area
