

4366 WSI-DW Wood Shelves Inset with Brackets (Set of 2)

Description

Introducing the D.B. Imports Wholesale Display Fixture accessories â€“ a set of two white wooden shelf insets with metal brackets that provide superior strength and stability while giving your retail space a stylish, timeless look. The wood is crafted from sustainably sourced materials, painted to perfection and finished with durable finishes to last for years of use. These wooden shelf insets are designed to be compatible with our single and double base units (4366 SBU & DBU). With simple installation instructions included in each package, these shelf insets can easily be added to any area in your store or office space providing easy access for customers or staff members alike.
